

EN3S

European Network for
Studies in Sports Sciences

"Go in for Sports Studies throughout Europe"

European Certificate: European Studies in Sport Sciences

Requirements

1. The European Certificate is given by the board of "European Network for Studies in Sport Sciences" or EN3S and recognizes the successful participation in European Studies in Sport Sciences in addition to the diploma given by the home university. This certificate may be delivered if the student obtains the equivalent of 30 ECTS in the host country (with a minimum of one semester of study in Sport Sciences in a European partner university) and completes at least the following 5 points:
 - 1° Successful participation in a practical sport course typical of the host country
 - 2° Successful participation in a second practical sport course
 - 3° Successful participation in an optional course (theory or practice)
 - 4° Successful participation in a research project or successful participation in a project with practical training (work placement)
 - 5° Successful participation in a course about sport and national culture or written paper (10 pages or 3000 words) about sport and national culture.
2. Students participating in the European Certificate get 30 ECTS for the successful participation in the 5 courses above.
3. Each partner university can distribute the 30 ECTS for the 5 courses according to its own necessity.
4. Students who want to participate in the European Studies in Sport Sciences Certificate apply to their home university and if they are admitted then they apply to the board of the European Network for Studies in Sport Sciences.
5. The board of the European Network for Studies in Sport Sciences confirms with this certificate that the participating students:
 - have a deeper knowledge of a sport culture in a European country;
 - have gained concrete experience in a European country;
 - have actively been involved in a European country's specific sport culture;
 - and have developed basic knowledge in a second European language.
